## AIR ENGINEERING'S AIR COMPRESSION SERVICES

**Never buy another compressor again: Transform your plant's compressed air into a consistent, reliable utility like electricity, water, or gas!**

Another innovation from Air Engineering: Cost effective, worry-free compressed air without the capital outlay, reoccurring, unpredictable costs or internal resources required to procure, maintain and manage a fleet of air compressors. We'll provide self-contained, 250, 400, or 750 hp, oil flooded or oil free high performance compressor modules that are quickly installed, easily transportable and totally scaleable. Like a utility, you only pay for what you use. An additional benefit is that Maintenance, and all associated costs, becomes our problem, not yours!

## CORPORATE-WIDE SUPPLY & CONSOLIDATED SUPPORT

**True SINGLE-SOURCE RESPONSIBILITY, Deep Discounts & FREE Standard Shipping Guarantee  
MAXIMUM VALUE AND A LOWER TOTAL SPEND!**

Spend far less time and money on your Compressed Air Systems than ever before! No matter how many plants, no matter how many different compressors or brands, no matter how complex your needs – you can rely on one centralized supplier with nationwide capabilities to keep your compressors and everything associated with them running at peak efficiency! The bottom line is you'll be able to focus a lot more time and money on your business – and a lot less on your corporate-wide Compressed Air Infrastructure!

## RECIPROCATING AIR COMPRESSOR PARTS

**We got our start with reciprocating compressors and continue to provide every part needed to keep your units in peak operating condition.**

- Complete Valve Assemblies
- Gaskets and Seals
- Pistons and Piston Rods
- Connecting Rods
- Bearings
- Babbitted Bearings
- Lubricants
- Piston Rings
- Crosshead Rings
- Scraper Rings
- Packing Rings
- Teflon Rings
- We Specialize in Oversize Parts!

## ROTARY SCREW PARTS

**We provide the parts and lubricants you need for all major brands of Rotary Screw Air Compressors:**

- Synthetic lubricants
- Air/Oil Separators
- Air & Oil Filters
- Valve Kits
- Solenoid Valves
- Exhaust Mufflers
- Oil/Water Separators
- Switches
- Check Valves
- Hoses
- Gauges
- Pilot Valves
- Control Regulators
- Minimum Pressure Check Valves
- Thermostatic Oil Bypass Valves
- Safety Relief Valves

## AIR & OIL FILTERS

**Air Engineering supplies all types of air and oil filters including Spin On, Element Type, Cartridge Type and Sock Filters.**

- Designed to high performance standards for these brands and more:
- Atlas Copco
- CompAir
- Gardner Denver
- Ingersoll-Rand
- Joy
- Kaeser
- Kellogg
- LeRoi
- Quincy
- Sullair
- Sullivan-Palatek
- Worthington

## HEAT EXCHANGERS

**Whether you need a water cooled or air cooled heat exchanger, Air Engineering can supply it and save your company money.**

- Inter Coolers
- After Coolers
- Tube Bundles
- Repair of Old Units
- Obsolete Models
- Tube Nest
- Stainless Steel
- Copper Nickel
- Bronze

## AIR/OIL SEPARATORS

**Featuring Air Engineering's proprietary Pleat Pak™ for the ultimate in performance.**

- Engineered to provide maximum separation with a minimum amount of differential pressure
- Proven to out-perform the compressor manufacturer's air/oil separator
- Specifically designed to work with today's synthetic lubricants
- Constructed of heavy gauge material for maximum durability
- Warranty includes "lost lubricant replacement"

## COALESCING FILTERS POINT OF USE FILTERS

**We supply housings and elements for all brands and styles of line filters, including:**

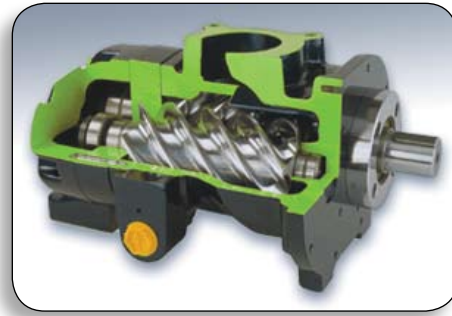

- Airtek
- Arrow
- Atlas Copco
- Balston
- Busch
- Deltech
- Domnick Hunter
- Finite
- General Pneumatics
- Hankison
- Headline
- Ingersoll-Rand
- Kaeser
- Kemp
- Norgren
- Pall
- Parker
- Pioneer
- Pneumatech
- Pure-Air
- Sullair
- UltraAir
- Ultrafilter
- Van Air
- Watts
- Wilkerson
- Zander
- Zeks
- Zurn

## LUBRICANTS

**Value engineered to help you stay competitive in today's challenging economic climate.**

- Air Engineering lubricant is designed to out-perform lubricants offered by the compressor manufacturers.
- Proprietary Engineering assures full compatibility with compressor seals and hoses.
- Laboratory analysis and professional evaluation of lab results provided free-of-charge to all Air Engineering lubricant customers.
- We supply High Performance replacements for:
  - Sullube 32
  - Ultra Coolant
  - 24 KT
  - GA-8K & GA-4K
  - QuinSyn
  - SSR Coolant
  - AEON
  - Palasyn & Pallube
  - SSL, S-320, XL-700
  - Food Grade Lubricant-full line.

## AIR END REBUILDING

**For over 30 years, Air Engineering has been rebuilding air ends from 5 to 500 hp for all brands of rotary screw compressor & vacuum pump.**

- Remanufactured to Exacting Standards
- Engineered to Outperform Factory Exchange Units
- 1 or 2 Year Warranties on All Rebuilds
- Fast Turnaround - Average 5 to 7 Days
- Free Lubricant Analysis Included
- Replacement Drive Gear Sets
- Full-Service, In-House Machine Shop
- Sealing Strip Repair
- Dynamic Rotor Balancing
- Variable Speed Units
- Oil-Free Units Including Atlas Copco® Z Series

**YOUR SINGLE SOURCE  
For Enterprise-Wide  
Compressed Air Savings!**

Since 1962, we've been saving our customers big money *and* big time with high performance parts and lubricants that keep every major brand of air compressor running smoothly and cost-effectively!
